

Title

Your name

(Intro)

- Basic information, simple stats Part II

(Images)

- You need two good images of your planet. You may choose have them on 2 slides. You need to write a caption that explains the image as well.

(Image)

Caption (is the image artwork or a photo from a satellite/ telescope? Who made the image?)

Climate

- The good stuff from part III

Humans and your topic

- What would it take to live there? Look in part V

I bet you didn't know...

- Something new and interesting to you.
Look in Part IV

Sources

- List the places from which you got your information and your images
- FYI: Google, Yahoo, etc. are search engines, not sources. They direct you to the real sources.
